

SandStorm Prestige I/O

The next step in blasting technology designed for the discerning dental laboratory. The SandStorm Prestige provides control and convenience in micro-abrasive blasting.

- Insta-off (I/O) feature immediately starts and stops media flow
- Large well lit work area
- Standard three tank system with three hand pieces
- Air blast nozzle inside cabinet for clean-up operations
- Labor Saving "Easy Fill" tanks hold up to 4 pounds of media
- Tungsten Carbide Precision Tips and Sapphire Crystal Embedded Tips
- Non-clogging flow system provides blasting consistency
- Stainless steel work surface
- Foot pedal control
- Powder coated heavy gauge welded cabinet
- 3 year warranty
